

E-Z Arm® 2.5 Extractor Arm

Features & Benefits

- **2.5-in. dia. arm in 4- or 6-foot lengths**
Provides for high-efficiency source-point collection for close work areas.
- **4.75-in. dia. flanged intake hood:**
Increases collection area and efficiency.
- **Strong, extruded aluminum tubing:**
Epoxy powder coated for corrosion resistance; lightweight for one-hand positioning.
- **Triple-joint section design:**
Provides complete 360° range of movement, allows for positive positioning in any setup.
- **Heavy-duty stamped aluminum joints:**
External friction adjustments can handle continued repositioning with losing position integrity.
- **Universal wall/table mounting bracket:**
Allows multiple mounting options to maximize operator productivity and space usage.
- **Flange-up or flange-down design:**
Allows table or wall mounting configuration.

Options

- **Filtration Units:**
HEPA, cartridge, and odor-control filter systems available based on application.
- **Blower Packages:**
Multiple options available to meet application-specific criteria.
